DWIGHT FURNESS & COMPANY, Guanajuato, Mexico. This Company has been formed to take over and equip with modern machinery one of the largest mini estates in the Republic of Mexico, all the original owners of which remain interested as holders of the Commentary These interests consist of

First: MINING INTERESTS.

54 per cent. of the Sirena Mine, with extensive improvements, having 25,000 feet of aderground workings and gold and silver ore awaiting treatment, valued by experts 26,000,000.

49 per cent. of the Alamitos Tunnel, with 1,300 feet on the mother lode.

50 per cent. of the Cardones Mines, containing a large tonnage of available ore.

75 per cent. of the Rayas (Concordia) Mine Preferred Stock, which has produced 130 flions of dollars to date.

8 per cent. of the Barraguna Mine and improvements.

100 per cent. of the San Vicente Mine and improvements.

THE ENTIRE DISTRICT HAS PRODUCED OVER TWO BILLIONS OF DOLLARS IN 200 TEARS, AND IS NOW PRODUCING SIX MILLIONS ANNUALLY. Second: PLANT AND IMPROVEMENTS.

The entire reduction works (Incienda) of "San Francisco de Pastito," including numerous substantial buildings, all tools and equipments thereof, having recently inventoried about one-quarter of a million dollars.

The Main Stream Tunnel, 10x14 feet, has been driven about 5,000 feet, and is well tracked and walled. This and other improvements on the properties now represent an outlay of fally OME MILLION DOLLARS.

The entire Waterworks System of Mata and San Francisco, with aqueducts and Mata Dam. All improvements and water rights in connection therewith.

The new Ross Continuous Gold Mill, Tramway, Electric Plant, &c., costing \$150,000, the new Ross Continuous Gold Mill, Tramway, Electric Plant, &c., costing \$150,000, the new Ross Company, Chicago.

Francer & Chalmers Company, Chicago.

Francer & Chalmers Company, Chicago.

Hisdon from Works, San Francisco.

E. P. Allis Company, Milwankee.

General Electric Company, New York, giving the Company the most complete, economical, and substantial up-to-date plant THAT CAN BE designed.

The property is situated in and near the City of Guanajuato, which has a population of about 60,000 people, is on a branch of the Mexican Central Railroad, 14 miles from the main line and 200 miles north of the

branch of the Mexican Central Railroad, 14 miles from the main line and 260 miles north of the carry's combination embras as sufficient mines for several distinct corporations, and the Company's lace some of its properties in separate companies, retaining therein substantial interests. In the several manager of the properties in the mine, described in expert's reports, a recent strike is reported by a have opened into an ore body 32 feet in width, averaging \$22.00 per ton.

"In Manager writes under recent date that there are over 500.000 tons of ore on the old dumps, and a new mill profit of \$5.00 per ton, making for the 70-ton plant, now being rapidly completed, 25 in a new mill profit of \$5.00 per ton, making for the 70-ton plant, now being rapidly completed, 25 mr many years' ore supply. It is our opinion that we are in one of the famous bonances of this which have made it celebrated in the past, and from which millions have been and can be taken, which have made it celebrated in the past, and from which millions have been and can be taken, which mine above the 1,000-foot level has been reliably compiled at about ten millions of dollars, and the mine above the 1,000-foot level has been reliably compiled at about ten millions of dollars, and severally exercises and a several developments for 350 feet in new ground below the 1,000-foot level prove the holding the Sirena ore chimneys.

One Thousand Millions of Dollars, the Greatest Mine the World Has Ever Known.

Within the past month we have had one of our most trusted experts visit the property, and on his report we bese our opinion that the Sirena is destined to be one of the great and permanent mines on this Continent, Like the Homestake, Anaconda, Calumet and Hécla, Quincy, and other great producing properties in this Like the Homestake, Anaconda, Calumet and Hécla, Quincy, and other great producing properties in this country, and the El Gro, Esperanza, Rayas, and Valenciana Mines of Mexico, we believe that the Guanajuato Company's property will also have a long, profitable career.

Company's property will also have a long, profitable career.

Some of the most substantial and successful mining men in Mexico, are large holders of this stock, a considerable interest having also been acquired abroad, and by well-known bankers in this city—the largest indisiderable interest having also been acquired abroad, and by well-known bankers in this city—the largest indisiderable interest having also been acquired abroad, and so well-known bankers in this city—the largest indisiderable interest having also been acquired abroad, and so many company has been reported on by Herbert The property of the Guanajuato Consolidated Mining and Milling and Milling and Mist year was again examined by Massers.

F. Sellon, M. E., who spent several weeks in his examinations, and last year was again examined by Massers.

MacDonald, M. E., of Zacatecas, Mexico, and on their joint recommendation was purchased.

MacDonald, M. E., of Zacatecas, Mexico, and on their joint recommendation was purchased.

The low wages paid miners in Mexico, now ranging on the Company's payrolis from 30e, to \$1.00 Mexican Silver per day, minimize the cost of mining as compared with other countries.

earnings of the Company.

The General Manager's last report on the condition of the property states that during the past year 1,100 feet of new drifts were run and that the ore taken out, without stopping, paid the cost of the development work, and that a late shipment of selected ore averaged 8000 to the ton. The new ore reserves recently placed in sight he values at one-quarter of a million dollars. Address applications for shares to

Mr. Igelhelmer's interest in the said partnership has been transferred to Mr. Walker, who has now become use sole proprietor of the said business.

# 35 BROAD STREET, NEW YORK.

Kansas - City, Pittsburg & Gulf R. R. Co In proceedings taken at the request of the

control of the foreclosure and receivership proceedings. None of the original appointees of the State Court nor any one connected with the former management of these Companies remain as Receivers.

Your property will therefore be administered by impartial and competent Receivers, pending reorganisation, which, in your own interests, should be promptly completed.

As all aubstantial matters of controversy among security-holders have now been disposed of, unity of action, evidenced by the immediate deposit of all of the securities above mentioned, will be to your advantage.

A plan of reorganisation will be published

A plan of reorganisation will be published for your approval as soon as the examina-tion of the properties and of the accounts can be completed.

The Agreement provides for the publication

STOCK AND BOND BROKERS,

IRON & STEEL.

\$250,000 wanted as special capital or loan on blast furnace coal and ore property in South to enlarge, improve and add steel plant. Address IRON, Tribune Office.

As a safe and profitable form of investment for moderate amount of money nothing equals the shares of a good copper mine in the deve-opmental or productive stage. The greatest profits ever known have been made in copper shares during the last two years. Over a hundred million dollars have been made by people who have bought or held copper shares since January 1, 1897.

The greatest profits are in good low priced shares and when a copper mine is in the developmental stage, between the time of its organization and that at which it earns or pays its first dividend. Such stocks are usually sold at from five cents to fifty cents on the dollar of their par value, and they usually go to par and a premium when they pay their first dividend.

I am authorized to offer a limited number of shares in one of the very best of the low priced Copper Stocks, and at a low price and of a company that has three large groups of copper protecties.

Has a square mile of rich mineral grounds.

Has a requare mile of rich mineral grounds.

Has ore 25 per cent, copper and 766 oz. silver to the ton. Has ore worth \$500 a ton.

Has a properties in the world's richest copper deposits (Arizona).

Has properties adjoining one of the greatest of copper mines.

Has a \$5,000,000 capitalization.

Copper Stock.

company.

Has 2,500 stockholders.

Has its shares largely held in Boston and New England

New York, Middle and Western States.

Has no debts.

New York, Middle and Western States.

Has no debts.

Has no preferred stock or bonds.

Has half its stock available for treasury purposes until dividends are paid.

Has shares only one dollar each, par value.

Has shares full paid and non-assessable.

Has an unequalled record for rapid development.

This company's policy is to become one of the foremost copper mining companies in this country, and of the class that the Calumet and Hecla, the Anaconda, the Boston and Montana, the United, the Verde and the Copper Queen belong to. Its shares are being offered at a price so low that its shareholders will make the profits characteristic of all good low priced copper stocks. It is now really to become a builton producer, and the time of its becoming a dividend payer is wholiv a matter of securing the requisite working capital for that purpose.

The prospects of a large increase in the value of its shares and in the immediate future are very good, as the enterprise is in that stage of development immediately preceding the one when it enters the class of dividend payers.

Procupied and the immediate future are very good, as the enterprise is in that stage of development immediately preceding the one when it enters the class of dividend payers.

Procupied and the immediate future are very good, as the enterprise is an object.
